

## Press release Calendar Week 38/I

### Into the far-away

#### Towbars and transport accessories for the Jeep Wrangler and Renegade

“Jeep” has stood for cross-country mobility and versatility for more than 75 years now. The latest models of the eponymous US manufacturer also meet these standards, and with the Wrangler and Renegade it features two real off-road pros. And with a towbar from **Rameder**, Europe’s leading provider when it comes to automotive transport solutions, they become real all-rounders, too!

For the Jeep Wrangler III, **Rameder** has multiple removable towbars for a towing capacity of 3100 to 3500 kg, incl. electric kit and available from €229,99. The Wrangler will now tow almost anything. But the Jeep Renegade can also be upgraded, although it is almost rather a city car. The fixed towbar as a complete set for a towing capacity of 1500 kg is available from €139,99, the removable one from €219,99.

The complete sets aside, the removable and fixed towbars can also be bought individually, as can the respective electric kit. The removable towbar for the Wrangler III is available from €145. The fixed towbar for the Renegade costs €129; the removable is available from €209.

Needless to say that **Rameder’s** huge portfolio also features other automotive transport solutions: bike carriers for the towbar or roof, for example, plus trailer and car accessories and many care products. **Rameder’s** online shop at [www.rameder.eu](http://www.rameder.eu) is always worth a visit. And should you have any questions, ask our customer service!
